National Lubricants & Greases (NLGI) 80th Annual Meeting

Tucson, AZ, June 15th - June 18th, 2013 - NLGI holds an annual meeting each year, traditionally in early June. This year the conference will be held June 15th through June 18th in Tucson, Arizona. Members, and all others interested, are invited to attend. Attendance is always international, and of the 25 to 30 papers presented, many are by authors outside the U.S.A. Sessions are held in which the papers are generally grouped according to subject matter and general interests; these include sessions dealing with grease manufacture, marketing, technical information, product testing, environmental issues and government regulations.

Climax Molybdenum representatives will be attending this conference. If you are interested in meeting with us, please contact climax@fmi.com.
