28th ELGI Annual General Meeting

Hilton Molino Stucky, Venice Italy, April 16th – 19th, 2016 - The European Lubricating Grease Institute (ELGI) was established in 1989 and is an independent, self-governing institute, financed by members. It is one of a group of scientific and technical institutes active in the field of tribology dealing with lubricating greases and associate products. The ELGI has a wide membership based in over 25 countries. Each year its Annual Conference is held in a different European City. Papers matching the theme of 2016 relate to greases designed for excellent performance under high temperature conditions e.g. in steel plants or cars. Machine parts lubricated with grease drafted for high temperatures and grease components like base oils and additives that enhance high temperature stability of greases.

Climax Molybdenum representatives will be attending this conference. If you are interested in meeting with us, please contact Climax_Molybdenum@fmi.com
